Sven Peeters
Full Stack Developer

PROFILE

I am an experienced freelance consultant with a broad interest in IT technologies, primarily focusing on JavaScript, user interfaces, and automation.

I enjoy working on challenging projects and the teamwork required to deliver a solution. In the past ten years, I have worked with several technologies in various industries (agencies, accountancy, banking, and public). Helping start-ups and growing companies reach their digital ambitions are one of the main targets.

EXPERIENCE

Setle
05/2020 > current

Product Owner, Team Lead, Full Stack Developer

Within the application team responsible for the development roadmap and development of a new platform based on a microservices architecture on top of Next.js, Nest.js and GraphQL. The first POC was written in PHP (Laravel).

Skills: PostgreSQL, Hasura, GraphQL, REST API's, React, Next.js, Nest.js, Docker, DigitalOcean, Node.js, JavaScript/TypeScript, PHP, Laravel, MySQL

Mercier-Vanderlinden Private Bank
06/2020 > current

Full Stack Developer

I developed the entire client portal application as a freelance full-stack developer. I also designed the application for mobile and desktop and built a design system to reuse in other applications.

Skills: REST API's, Vue.js, Nuxt, Docker, Node.js, Flutter, JavaScript/TypeScript

SoccerLab
09/2019 > 09/2020

UI Developer, Full Stack Developer

Within the team, my duties included designing (Figma) and developing reusable components in AngularJS for multiple internal and external applications.

Skills: Figma, AngularJS, Angular, Node.js

Born Digital
01/2017 > 02/2022

Mentor

As a mentor, I organized technical workshops on front-end technologies and design systems and was responsible for recruiting technical profiles.

Skills: Web Technologies (HTML, JavaScript), React, Figma, Storybook, UI Development
